**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 8-11, drawn to a system for accessing an electronic file, classified in class 709, subclass 229.

II. Claims 1-7, drawn to a method of delivering an electronic license, classified in class 705, subclass 59.

III. Claims 13-20, drawn to a method of delivering software, classified in class 707, subclass 205.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II & III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as accessing an electronic file. Invention II has separate utility such as delivering an electronic license. Invention III has separate utility such as delivering software. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
